Dear Carmela,

Further to my trailing mail regarding cofinancing commitment of INR 137 Crores (~USD 20.8 million) , I am attaching the mail received from BSP with the statement of expenditure by BSP for PCB project. As on date, the expenditure is INR 43.5 Crores which approx. USD 6.6million.

With warm regards,
Ramdev

Dear Carmela,

The Board of Directors of SAIL approved the proposal of capital cost of INR 137 Crores (~ USD 20.8 millions) which include cost of civil structure (INR 37 Crores equivalent to USD 5.6 million) and cost of replacing PCBs filled transformers with new ones (INR 100 Crores equivalent to USD 15.2 million) for the PCB project . This excludes the cost of land measuring 12000 square meters,

I have requested BSP to provide the figures,

With warm regards,
Ramdev

Subject: Fw: Terminal Evaluation Submission

Dear Dr. Ramdev,

May I have the cofinancing figures for the India PCB project? I know CPRI provided one. Can we have the figures from BSP?

Best regards,

Carmela

Dear Mark,

Will try to do this when we have all the TE and cofinancing reports.

Best,

Carmela

Dear Carmela,

Happy new year, hope you enjoyed the Christmas break,

During the break we had some communication with the GEF Secretariat regarding terminal evaluations of various projects. GEFSec highlighted that project teams should proceed to upload Terminal Evaluations as soon as possible.

There are some outstanding projects that are missing their Terminal Evaluation report from the GEF Portal. Here is the list of all projects,

GEFID	UNIDOID
3803	104160
5082	150033
4782	140157
3775	104044

Given that you are indicated as the AH for these projects, could please kindly see that the TEs of these projects are submitted in GEF Portal at your earliest convenience.

I am attaching an in-detail guidance on how to upload the TE in the Portal, should you have any questions regarding the procedure please let me know.

Warm Regards

Mark Grigoryan
