Project Development Objectives

Project Development Objective (from Project Appraisal Document)

The objective of the project is to improve irrigation delivery, through rehabilitation and modernization of distribution infrastructure in selected schemes, and through strengthening of capacity of WUAs.

Has the Project Development Objective been changed since Board Approval of the Project Objective?

Component 1. Irrigation System Modernization:(Cost \$249.00 M)

Component 2. Innovation and Institutional Support:(Cost \$2.00 M)

Component 3. Project Management:(Cost \$3.00 M)

Overall Ratings

Name	Previous Rating	Current Rating
Progress towards achievement of PDO	Satisfactory	Satisfactory
Overall Implementation Progress (IP)	Moderately Satisfactory	Moderately Satisfactory
Overall Risk Rating	Moderate	Moderate

Implementation Status and Key Decisions

The project is in its third year of implementation and is expected to last for an additional four years until the official closing date of February 27, 2026. The implementation progress to date is *Moderately Satisfactory*. Construction work at Eregli-Ivriz and Uzunlu irrigation schemes is progressing well. However, works implementation at Atabey and Alasehir irrigation schemes is slower than planned.

The activities under Component 2 "Innovation and Institutional Support" are progressing satisfactorily. The contracts for the SUTEM

software development and for Bolvadin, Afyon solar-powered groundwater pilot have been signed and implementation is in progress. All of these activities are expected to be completed by January, 2023.

There was some budget saving due to the lower actual contract values for the four contracted irrigation schemes than planned, part of which will be used for rehabilitation of Asfar dam. The overall disbursement level is about 14.8%, which is expected to pick-up during the first and

second quarters of Fiscal Year 2023. The overall works implementation progress rate is 16.2% and the progress towards achievement of PDO is *Satisfactory*. The project is compliant with all relevant environmental and social safeguards policies and procedures.
