

30 January 2023

Dear Mr. Triyangkulsri,

I have the pleasure to refer to your letter dated 9 December 2022 (reference number: 0312/14244) on the GEF-UNIDO-supported project “Greening Industry through Low Carbon Technology Applications for SMEs in Thailand” (GEF-ID 5725, UNIDO ID 130279).

I would like to thank your office and the Project Steering Committee for the continuous support and guidance provided to the Project Management Unit on the execution of the project activities and the planned project closure. I am also pleased to confirm that the project will be extended until 31 December 2024. Joint efforts will be made to allow for a smooth completion of the remaining activities, including the independent terminal evaluation, within the framework of this extension at no cost.

The upcoming Project Steering Committee, likely to take place in March 2023 should provide an excellent opportunity to define all necessary measures to increase the efficiency of the implementation of all outstanding project activities, disbursement of funds and ensure a successful completion by the above-mentioned date.

Kindly note that in this regard it is highly unlikely that any further extensions will be granted for this project.

I look forward to working closely with you and your team towards the successful completion of this project.

Yours sincerely,

Ciyong Zou  
Deputy to the Director General  
and Managing Director  
Directorate of Technical Cooperation  
and Sustainable Industrial Development

Mr. Panuwat Triyangkulsri  
Acting Permanent Secretary  
Ministry of Industry  
75/6 Thanon Rama VI, Thung Phaya Thai  
Ratchathewi, 10400  
Bangkok  
Thailand

CC: Mr. Jatuporn Buruspat, GEF OFP and Permanent Secretary  
Ministry of Natural Resources and Environment
