Subject : Co-financing of the "Planning and Financing Adaptation in Niger" Project.

Madam Executive Coordinator,

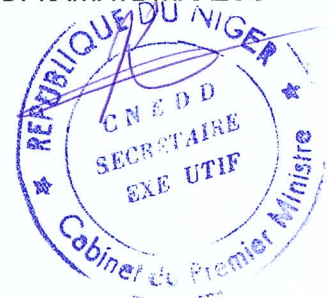

By this letter, I confirm that the CNEDD Executive Secretariat will contribute to the co-financing of the UNDP/LCDF "Planning and financing adaptation in Niger" project for an amount of approximately USD 3,300,000. This indicative amount represents the investments planned within the framework of the implementation of the « *Zones à Risque Environnemental et social Elevé deuxième phase (ZARESE II)* » project that was just launched and whose activities and objectives are in perfect complementarity and synergy with the "Planning and financing adaptation in Niger" project.

Please accept, Madam Executive Coordinator the expression of my highest consideration.

Objet: Co-financing for the "Planning and
Financing Adaptation in Niger" Project

M. Executive Coordinator,

In Niger, water resources are one of the key sectors threatened by the adverse impacts of climate change. Therefore, the "Planning and Financing Adaptation in Niger" project currently being designed by UNDP to be financed by the LDCF/GEF, will make an important contribution to the management of this sector while integrating climate change.

I hereby confirm the commitment of the Ministry of Hydraulics and Sanitation to provide in-kind co-financing for the "Planning and Financing Adaptation in Niger" project for an amount of USD 25,400,000, representing the resources to be invested by the following projects, the implementation of which will be carried out in effective complementarity and synergy with this new project:

N°	Name of the projects implemented in synergy with « Planning and Financing Adaptation in Niger »	Montants des financements
1	Project "Water for growth and poverty reduction in the Mekrou sub-basin in Niger" (Mekrou Project Phase 2 - Niger), implemented by the West African Regional Water Partnership (GWP-WA) and the Permanent Secretariat of PANGIRE Niger, (SP/PANGIRE), 2020-2022	US\$ 1,100, 000
2	Integrated Climate Change Development and Adaptation Programme in the Niger Basin (PIDACC/BN), Component Niger, implemented in the Niger portion of the Niger Basin (Tillabery, Dosso, Tahoua, Tillabery and Maradi regions)	US\$ 24 300 000

Please accept, Mr. Executive Coordinator, my highest consideration.

Objet: Engagement pour le co financement du
Projet « Planning and Financing Adaptation in Niger »

Monsieur le Coordinateur,

Au Niger, les ressources en eau constituent un des secteurs clés menacés par les effets négatifs du changement climatique. Aussi, le Projet « Planning and Financing Adaptation in Niger » en cours de formulation par le PNUD pour être financé par le LDCF/FEM, constituera une importante contribution à la gestion de ce secteur tout en intégrant le changement climatique.

Par la présente, je confirme l'engagement du Ministère de l'Hydraulique et de l'Assainissement à co financer le projet « Planning and Financing Adaptation in Niger » pour un montant de **25 400 000 USD**, représentant les ressources à investir par les projets ci-après et dont la mise en œuvre se fera en effective complémentarité et synergie avec ce nouveau Projet :

N°	Intitulé des projets en synergie avec le nouveau Projet « Planning and Financing Adaptation in Niger »	Montants des financements
1	Projet « L'eau pour la croissance et la réduction de la pauvreté dans le sous bassin de la Mékrou au Niger » (Projet Mékrou Phase 2 – Niger), mis en œuvre par le Partenariat Régional de l'Eau de l'Afrique de l'Ouest (GWP-AO) et le Secrétariat Permanent du PANGIRE Niger, (SP/PANGIRE), 2020-2023	1 100 000 \$ US
2	Programme Intègre de Développement et d'Adaptation au Changement Climatique dans le bassin du Niger (PIDACC/BN), Composante Niger, mis en œuvre dans la portion Nigérienne du Bassin du Niger (régions de Tillabery, Dosso, Tahoua, Tillabery et Maradi) ; 2020-2025	24 300 000 \$ US

Veuillez agréer, Monsieur le Coordinateur Exécutif, ma considération distinguée.

Subject: Co-financing of the project « Planning and Financing Adaptation in Niger »

Dear Mr. Kurukulasuriya,

The United Nations Development Programme (UNDP) in Niger assists the Government through the Country Programme Document (CPD), which gives great importance to strengthening the climate change resilience of populations and institutions.

In this context, UNDP has supported the Government to mobilize the necessary resources from the Green Climate Fund (GCF) for the implementation of the project "National Adaptation Plan-Advancing, medium- and long-term adaptation planning and budgeting in Niger (NAP)". This GCF project was designed in consultation with the LDCF project formulation team, to complement the "Planning and financing adaptation in Niger" project. UNDP hereby confirms its commitment to provide grant co-financing for the project "Planning and financing adaptation in Niger" for US\$ 2,667,282 through the complementary and synergistic implementation of the project "National Adaptation Plan-Advancing medium- and long-term adaptation planning and budgeting in Niger (NAP)".

In addition, since the objective of the "Planning and financing adaptation in Niger" project is aligned with the CPD's strategic areas of intervention, UNDP commits to contribute to the implementation of the project with grant co-financing of US\$ 500,000 using its core funds (TRAC).

Therefore, the total amount of UNDP grant co-financing for the "Planning and financing adaptation in Niger" is US\$ 3,167,282.

Please accept, Sir, my best regards.
