# STAKEHOLDER CONSULTATION : INTEGRATED APPROACH FOR CITY PLANNING OPENING CEREMONY

*Ms. Xueman Wang, Senior Urban Specialist and Program Manager for the World Bank*

### **Welcoming Remarks by The World Bank**

The Global Platform for Sustainable Cities (GPSC), has a mission to support Melaka Structure Plan 2035 fully in achieving a growing and resilient economy, a green state, harmony and inclusiveness with its unique identity.

*YAB Datuk Seri Utama Ir. Hj Idris bin Hj Haron, Chief Minister of Melaka*

### **Speech and Launch of Project**

It is with anticipation that there will be more informed and improved dialogue between stakeholders especially from our devoted international partners, a greater understanding by decision makers of the priorities that need to be considered in the procedures and plans required improving city's sustainability, trading off different values and outcome. and clear recommendations on additional data gathering required in filling key information gaps

Ministry of Urban Wellbeing,  
Housing and Local Government

WORLD BANK GROUP

## STAKEHOLDER CONSULTATION : HIGH LEVEL FORUM ON SUSTAINABLE CITIES

*Dato' Saiful Anuar Bin Lebai Hussien, Deputy Director General (Policy),  
Economic Planning Unit,  
The Prime Minister's Department*

### **Synchronizing Sustainable Initiatives into an Integrated Approach**

From Macro-perspective, Malaysia has been embarking Sustainable Development since 1990's by adopting many initiatives such as corridor development and cities competitiveness. We are using all sorts of approach and mechanism to ensure the planning will involve all stakeholders and being implemented at all level; cities, states and sub-regional.

*TPr. Md. Nazri Abdullah, Town Planner, PLAN Malaysia,  
Ministry of Urban Wellbeing, Housing And Local Government*

### **Translation of National Physical Plan 3 into Local Implementation**

With its goal – Resilient and Livable Nation, population and urbanization rate are two important elements that we take into consideration during the development on NPP3. This it to ensure that each state in Malaysia could adopt NPP3 into their Structure Plan as it is tailor made for each states'

*Ms. Fitri Abdul Rahman, Deputy State Director, PLAN Malaysia Melaka*

### **Rapid Assessment Exercise (RAE) for Melaka State Structure Plan (MSSP) 2035**

Melaka State Structure Plan has been endorsed by State Government with four thrusts; Resilient Economic Growth, Melaka As Green Technology City, Harmony and Inclusive of Melaka and Melaka Identity. These thrusts are in-line with RAE outcome. Thus, we support this assessment to enhance our MSSP.

## STAKEHOLDER CONSULTATION: HIGH LEVEL FORUM ON SUSTAINABLE CITIES

*Mr. Balamurugan Ratha Krishna, Deputy Director, Centre for Indonesia-Malaysia-Thailand Growth Triangle (IMT-GT) Sub-Regional Economic Cooperation*

### **View on Leveraging Regional Integrated Approach in Creating More Competitive and Resilient Cities**

It takes local champion in leveraging the integrated approach in sustainability. For Melaka, 150 million have been invested for programs on energy efficiency and carbon inventory which the documents could be used as foundation for future use in bringing investor to the city. need to green growth into the Structure Plan. Future Planning, capacity Building for Melaka Citizen is important in leveraging the approach to the next level by changing their mindset.

*Ms. Katarina Barunica, Sustainable Urban Planning Associate, Energy Department, UNIDO*

### **Global Level at Leveraging Expertise in Sustainability.**

Malaysia have a good track in Policy Planning. Through this project, we will focus on implementing the policy through technology transfer and pilot demonstration. We will get the best technology to Malaysia and test it on the ground. Together with the World Bank and other partners, we look forward to see a concrete result from the pilot demonstration and to look at how to scale it up whether through setting up a different financial mechanisms or replication through avenue from funding mechanism such as Global Environment Facility (GEF). But definitely, we will be seeing Melaka as a Champion and we will be able to scale up the project.

*Mr. Dmitry Siveav, World Bank Urban Development Specialist (Competitive Cities)*

### **Rapid Assessment Exercise – Benchmarking of Melaka and other cities**

This is an early result of the benchmarking of Melaka and other cities. Through these initial results, we are trying to identify a comparable cities in terms its economic growth. What we are trying to find out what are the constraints for economic growth. Through this analysis, we will also like to address finance sustainability, social sustainability, energy efficiency and etc. It is hopefully the local stakeholders will guide the international consultants in finding out what are the strength, constraints, available economic structure and etc.
