### Overall Comments

This indicator was revised during the June 2020 restructuring and reflects the project's focus on beneficiaries from coordination and knowledge-sharing activities rather than investments within a country (as per the original target). The beneficiaries include PREP-counterparts and PMU participants that attended coordination meetings, regional advisory meetings and knowledge sharing events. In addition they also include those that attended learning events (virtual and on-line) and conferences/workshop at which the PREP RC-PMU presented knowledge products developed under the project, led sessions and or shared PREP-PIFS related outputs/activities relevant to the FRDP and PRP. The end target - with the meetings, continued knowledge sharing using virtual platforms and/or in-person platforms especially the major ones planned for August-September 2022 - remains achievable.
