

ALBIÄ - Chad Local Development and Adaptation Project (P171611)

AFRICA WEST | Chad | Environment, Natural Resources & the Blue Economy Global Practice |
IBRD/IDA | Investment Project Financing | FY 2020 | Seq No: 2 | ARCHIVED on 22-Jun-2021 | ISR47073 |

Implementing Agencies: Ministry of Environment, Water and Fisheries, Republic of Chad

Key Dates

Key Project Dates

Bank Approval Date: 12-Jun-2020

Effectiveness Date: 22-Sep-2020

Planned Mid Term Review Date: 25-Oct-2022

Actual Mid-Term Review Date:

Original Closing Date: 31-Oct-2025

Revised Closing Date: 31-Oct-2025

Project Development Objectives

Project Development Objective (from Project Appraisal Document)

The project development objective is to improve the management of natural resources and the livelihood of populations in selected climate vulnerable areas in and around the Ouadi Rime and Ouadi Achim (OROA) reserve in Chad.

Has the Project Development Objective been changed since Board Approval of the Project Objective?

No

Components Table

Name

Component 1. Sustainable Natural Resources Management and Protected Areas:(Cost \$13.00 M)

Component 2. Promoting Diversified, Resilient, Sustainable Livelihoods:(Cost \$36.45 M)

Component 3: Project Management, Coordination, and Monitoring:(Cost \$5.00 M)

Component 4: Contingency Emergency Response Component

Overall Ratings

Name	Previous Rating	Current Rating
Progress towards achievement of PDO	<input type="checkbox"/> Satisfactory	<input type="checkbox"/> Moderately Satisfactory
Overall Implementation Progress (IP)	<input type="checkbox"/> Satisfactory	<input type="checkbox"/> Moderately Satisfactory
Overall Risk Rating	<input type="checkbox"/> Moderate	<input type="checkbox"/> Moderate

Implementation Status and Key Decisions

This ISR covers the project implementation between November 25, 2020 and June 15, 2021. Since the last ISR, the implementation of the ALBIÄ - Chad Local Development and Adaptation project has moved forward on the following points:

- (i) Official Launch: under the leadership of HEM. Minister of Environment and Fisheries, the project was officially launched in NDjamena on April 1, 2021 and gathered HEM. Minister in charge of Water, General State Secretary for Planning, Donors, CSOs and various stakeholders.
- (ii) Steering committee and Annual workplan and budget: ALBIÄ 's steering committee was established on March 20, 2021 and the first session was held on April 8, 2021. During this first session, the annual workplan and budget was finalized and approved.

With regards to the first and second components, the project has achieved an important milestone in finalizing the procurement process for the two delegated management contracts of Subcomponent 1.1.i. and Subcomponent 2.2. They have been finalized on April 2, 2020 for the convention on Subcomponent 2.2 with SOS SAHEL International France, and on April 6, 2021 for the convention Subcomponent 1.1.i. with Sahara Conservation Fund. These conventions were signed on April 20, 2021.

Another important activity relates to the recruitment of 2 firms to conduct feasibility studies on water: (i) Integrated groundwater resources management under subcomponent 2.1 and (ii) APS/APD for water infrastructure under subcomponent 2.3. Procurement process is almost over and should be finalized by end of June 2021. These studies are critical as they are pre requisites for investments under component 2.

With regards to the third component, the project has moved forward with the finalization of the ToRs to recruit a firm to conduct prefeasibility studies for the construction of ALBIÄ PIU HQ in Djedaa. The project also signed a lease contract for temporary setting in Ati to supervise the construction works in Djedaa. The project should move in by the end of June 2021.

Results

PDO Indicators by Objectives / Outcomes

Improve the management of natural resources in selected climate-vulnerable areas in and around OROA				
► Share of populations of key species stabilized or increased on the OROA Reserve's territory (Percentage, Custom)				
	Baseline	Actual (Previous)	Actual (Current)	End Target
Value	0.00	0.00	0.00	70.00
Date	01-Jul-2020	26-Oct-2020	26-Oct-2020	31-Oct-2025
Comments:	This indicator measures the success of the Project's activities on biodiversity conservation on the territory of the OROA Reserve, using as a proxy the status of the populations of select species, deemed suitable for acting as meaningful indicator of conservation effectiveness. The list of species includes: the Scimitar-horned oryx, the Addax, the Dama gazelle, the Dorcas gazelle, the Red-fronted gazelle, the Arabian bustard, the Denham's bustard, the Nubian bustard, the white-bellied bustard, the black-bellied bustard,			

the Saville's bustard, the Lappet-face vulture, the Rueppell's vulture, and the Ostrich. Conservation efforts would be deemed successful if the populations of at least 70 percent of these select species are stabilized or increasing.

► Terrestrial protected area under improved management for conservation and sustainable use (Square kilometer(km2), Custom)

	Baseline	Actual (Previous)	Actual (Current)	End Target
Value	0.00	0.00	0.00	77,950.00
Date	01-Jul-2020	26-Oct-2020	26-Oct-2020	31-Oct-2025
Comments:	This indicator tracks the area under improved management (i.e., management plan is developed with realistic and meaningful goals, implementation budget is regularly available, consultations with stakeholders on results and future directions take place from time to time, positive results observed).			

► Land area under sustainable landscape management practices (Hectare(Ha), Corporate)

	Baseline	Actual (Previous)	Actual (Current)	End Target
Value	0.00	0.00	0.00	2,000.00
Date	01-Jul-2020	26-Oct-2020	26-Oct-2020	31-Oct-2025
Comments:	The indicator measures, in hectares, the land area for which new and/or improved sustainable landscape management practices have been introduced. Land is the terrestrial biologically productive system comprising soil, vegetation, and the associated ecological and hydrological processes; Adoption refers to change of practice or change in the use of a technology promoted or introduced by the project; Sustainable landscape management (SLM) practices refers to a combination of at least two technologies and approaches to increase land quality and restore degraded lands for example, agronomic, vegetative, structural, and management measures that, applied as a combination, increase the connectivity between protected areas, forest land, rangeland, and agriculture land.			

Improve the livelihood of populations in selected climate-vulnerable areas in and around OROA

► People provided with access to improved water sources (Number, Corporate)

	Baseline	Actual (Previous)	Actual (Current)	End Target
Value	0.00	0.00	0.00	10,000.00
Date	01-Jul-2020	26-Oct-2020	26-Oct-2020	31-Oct-2025
Comments:	This indicator measures the cumulative number of people who benefited from improved water supply services that have been constructed through operations supported by the World Bank.			

□ People provided with access to improved water sources - Female (RMS requirement) (Number, Corporate Supplement)

	Baseline	Actual (Previous)	Actual (Current)	End Target
Value	0.00	0.00	0.00	5,000.00

► Farmers adopting improved agricultural technology (Number, Corporate)

	Baseline	Actual (Previous)	Actual (Current)	End Target
Value	0.00	0.00	0.00	500.00
Date	01-Jul-2020	26-Oct-2020	26-Oct-2020	31-Oct-2025

Comments:

This indicator measures the number of farmers (of agricultural products) who have adopted an improved agricultural technology promoted by operations supported by the World Bank. NB: "Agriculture" or "Agricultural" includes: crops, livestock, capture fisheries, aquaculture, agroforestry, timber and non-timber forest products. Adoption refers to a change of practice or change in use of a technology that was introduced or promoted by the project. Technology includes a change in practices compared to currently used practices or technologies (seed preparation, planting time, feeding schedule, feeding ingredients, postharvest storage/ processing, etc.). If the project introduces or promotes a technology package in which the benefit depends on the application of the entire package (e.g., a combination of inputs such as a new variety and advice on agronomic practices such as soil preparation, changes in seeding time, fertilizer schedule, plant protection, etc.), this counts as one technology. Farmers are people engaged in farming of agricultural products or members of an agriculture related business (disaggregated by men and women) targeted by the project.

☐ Farmers adopting improved agricultural technology - Female (Number, Corporate Supplement)

	Baseline	Actual (Previous)	Actual (Current)	End Target
Value	0.00	0.00	0.00	260.00

☐ Farmers adopting improved agricultural technology - male (Number, Corporate Supplement)

	Baseline	Actual (Previous)	Actual (Current)	End Target
Value	0.00	0.00	0.00	240.00

Intermediate Results Indicators by Components

Support Biodiversity Conservation and Sustainable Natural Resources Management

► Number of basic infrastructure built on protected area (e.g., outposts, firebreaks, roads, watchtowers, visual delineation) (Number, Custom)

	Baseline	Actual (Previous)	Actual (Current)	End Target
Value	0.00	0.00	0.00	5.00
Date	01-Jul-2020	26-Oct-2020	26-Oct-2020	31-Oct-2025

Comments:

This indicator tracks the small infrastructure investments by the Project on Reserve to support conservation and management of natural resources. These investments, expected to include outposts, firebreaks, roads, and watchtowers, will facilitate, among others, overall monitoring and enforcement as well as fire management.

► Increased frequency and scope (% of PA area) of patrols for wildlife monitoring and protection (Percentage, Custom)

	Baseline	Actual (Previous)	Actual (Current)	End Target
Value	10.00	0.00	0.00	70.00
Date	01-Jul-2020	26-Oct-2020	26-Oct-2020	31-Oct-2025

Comments:

This indicator measures how effective the Project is in supporting more frequent and comprehensive patrolling on the territory of the OROA Reserve.

► Policies strengthened and national legal frameworks to combat wildlife crime (Yes/No, Custom)

	Baseline	Actual (Previous)	Actual (Current)	End Target
--	----------	-------------------	------------------	------------

Value	No	No	No	Yes
Date	01-Jul-2020	26-Oct-2020	26-Oct-2020	31-Oct-2025
Comments:	This indicator measures how policies and legal framework have been strengthened as a result of the Project.			

Encourage Inclusive Local Development

► Representatives in community-based decision-making and management structures that are females (Percentage, Custom)

	Baseline	Actual (Previous)	Actual (Current)	End Target
Value	0.00	0.00	0.00	50.00
Date	01-Jul-2020	26-Oct-2020	26-Oct-2020	31-Oct-2025
Comments:	This indicator measures the space created and the effectiveness of mechanisms established by the project to include vulnerable and marginalized groups in decision-making processes. The baseline will be established after a baseline study.			

► Participants to training and sensibilization sessions in environment, conservation, nature-based tourism, gender, citizen engagement, WSS, WRM and CSA provided (Number, Custom)

	Baseline	Actual (Previous)	Actual (Current)	End Target
Value	0.00	0.00	0.00	5,000.00
Date	01-Jul-2020	26-Oct-2020	26-Oct-2020	31-Oct-2025
Comments:	This indicator tracks the capacity building and awareness raising activity across a whole spectrum of NRM and climate change topics.			

► Number of inclusive and participatory local community SNRM committees and mechanisms operational (Number, Custom)

	Baseline	Actual (Previous)	Actual (Current)	End Target
Value	0.00	0.00	0.00	5.00
Date	01-Jul-2020	26-Oct-2020	26-Oct-2020	31-Oct-2025
Comments:	This indicator tracks the empowerment of local populations in managing natural resources in their vicinity. Operational mechanisms refers to: 1/ Clear rules established; 2/ Representativeness of participation; 3/ Regular meeting; 4/ Relevant decisions on common interest/community issues. The dimension of "inclusive" refers to the participation of women, youth and other vulnerable groups (such as persons with special needs, from minority groups., etc.). The dimension "participative" refers to the process and regularity with which community members are involved and heard. Both dimensions will be described in more detail in the Project Operations Manual of the project.			

Promote Resilient Livelihoods

► Farmers reached with agricultural assets or services (Number, Corporate)

	Baseline	Actual (Previous)	Actual (Current)	End Target
Value	0.00	0.00	0.00	2,500.00
Date	01-Jul-2020	26-Oct-2020	26-Oct-2020	31-Oct-2025

Comments:

This indicator measures the number of farmers who were provided with agricultural assets or services as a result of World Bank project support. "Agriculture" or "Agricultural" includes: crops, livestock, capture fisheries, aquaculture, agroforestry, timber, and non-timber forest products. Assets include property, biological assets, and farm and processing equipment. Biological assets may include animal agriculture breeds (e.g., livestock, fisheries) and genetic material of livestock, crops, trees, and shrubs (including fiber and fuel crops). Services include research, extension, training, education, ICTs, inputs (e.g., fertilizers, pesticides, labor), production-related services (e.g., soil testing, animal health/veterinary services), phyto-sanitary and food safety services, agricultural marketing support services (e.g., price monitoring, export promotion), access to farm and post-harvest machinery and storage facilities, employment, irrigation and drainage, and finance. Farmers are people engaged in agricultural activities or members of an agriculture-related business (disaggregated by men and women) targeted by the project.

□ Farmers reached with agricultural assets or services - Female (Number, Corporate Supplement)

	Baseline	Actual (Previous)	Actual (Current)	End Target
Value	0.00	0.00	0.00	1,300.00

► Number of water systems/points built/rehabilitated under delegated management (Number, Custom)

	Baseline	Actual (Previous)	Actual (Current)	End Target
Value	0.00	0.00	0.00	5.00
Date	01-Jul-2020	26-Oct-2020	26-Oct-2020	31-Oct-2025

Comments: The indicator tracks the number of water systems/points built/rehabilitated and under sustainable management through public private partnership (PPP) management.

► Number of Sanitation facilities constructed (Number, Custom)

	Baseline	Actual (Previous)	Actual (Current)	End Target
Value	0.00	0.00	0.00	10.00
Date	01-Jul-2020	26-Oct-2020	26-Oct-2020	31-Oct-2025

Comments: This indicator tracks the number of sanitation facilities constructed.

► Number of water resource data collection campaigns per year (Number, Custom)

	Baseline	Actual (Previous)	Actual (Current)	End Target
Value	0.00	0.00	0.00	2.00
Date	01-Jul-2020	26-Oct-2020	26-Oct-2020	31-Oct-2025

Comments: The indicator tracks the number of measurement campaigns conducted every year via measurement instruments (piezometer and pluviometer). Information collected is sent to the data base operators for update.

► % of women self-reported increased income (or increase yield) from extension services (Percentage, Custom)

	Baseline	Actual (Previous)	Actual (Current)	End Target
Value	0.00	0.00	0.00	50.00
Date	01-Jul-2020	26-Oct-2020	26-Oct-2020	31-Oct-2025

Comments: The indicator captures the percentage of women that report an increase in income (or increase in yield) from extension services that were supported by this project. The target values that are provided are

indicative. A baseline studies will provide a baseline value and also define more concretely the end of project target value.

Project Management

► Grievances registered related to delivery of project benefits that are addressed (Percentage, Custom)

	Baseline	Actual (Previous)	Actual (Current)	End Target
Value	0.00	0.00	0.00	100.00
Date	01-Jul-2020	26-Oct-2020	26-Oct-2020	31-Oct-2025
Comments:	This indicator measures the transparency and accountability mechanisms established by the project so the target beneficiaries have trust in the process and are willing to participate, and feel that their grievances are attended to promptly. It tracks the efficiency of the grievance redress mechanism: Communities have information about the project and are fully aware of the project processes, are aware of the grievance redress mechanisms put in place including the response time; and any conflict or disputes they take to the mechanisms is resolved within the appropriate time.
