Secretariat's Comments

RN 11/25/2025

Thank you for this submission. In order for this submission to be further considered in the selection round, please address the comments included in this review sheet and resubmit as soon as possible.

RN 12/9/2024

This PPG request is recommended for clearance.

During project preparation, please consider the following:

- ensure that the entire amount reported as ?amount to support action by IPLCs [for] biodiversity? in the CEO endorsement requests corresponds to project activities supporting action by IPLCs, and that the project documentation describes the IPLCs who will benefit from the project and details their role in the project. Activities where IPLCs are mere beneficiaries should not be counted in this amount. Support to stakeholders that are not IPLCs (i.e. indigenous peoples or local communities that embody traditional lifestyles relevant for the conservation and sustainable use of biological diversity) should not be counted either. Whether the project as a whole or certain project activities support action by IPLCs could entail a number of circumstances including but not limited to: IPLCs directly receive resources through the GEF agency for execution of project components/activities; IPLCs lead the design and management of some project activities but do not manage financial resources; the project provides in-kind support to actions led by IPLCs for biodiversity, etc.
