## **II. Indicative Project Overview**

- a) Is the project objective presented as a concise statement and clear?**
- b) Are the components, outcomes and outputs sound, appropriate and sufficiently clear to achieve the project objective?**

Secretariat's Comments 3/6/2026 - Cleared

Agency's Comments

- c) Are the components adequately funded?**
- d) Are the GEF Project Financing and Co-Financing contributions to PMC proportional (only for Multi-trust Funds PPGs with BD from the GEF Trust Fund)?**
- e) Is the PMC equal to or below 5% of the total GEF grant for projects of more than \$2 million or 10% for projects of less than \$2 million? If the requested PMC is above the caps, has an exception (e.g. for regional projects) been sufficiently substantiated?**

Secretariat's Comments

This PPG request has been selected by the CEO as part of the 5th GBFF selection round. During project preparation, please consider the following:

- Please consider expanding the scope to support the broader OECM framework in Cabo Verde, while piloting the proposed approach in low-intensity agricultural landscapes.
- Please ensure that proposed OECMs to be identified by the project to demonstrate criteria for Key Biodiversity Areas (KBA).
- Please refine the project outputs to clearly articulate the expected deliverables and how they will contribute to conservation outcomes.
- Since submission, [GBFF guidelines on supporting actions by IPLCs](#) have been published. Please follow these guidelines carefully during PPG implementation, taking care to involve IPLC representatives in co-designing relevant components and including IPLC institutions identified by IPLCs themselves. The CEO endorsement request is expected to provide evidence that the reported dollar amount to support actions by IPLCs for biodiversity was calculated according to the guidelines.
- Since submission, the GBFF Council adopted a [new results framework](#) for the GBFF. Please note this project will be requested to transition to this new results framework at its next best occasion, either the CEO endorsement request if submitted after July 1, 2026, or the first PIR. Please note that detailed guidelines for the new results framework will be released before July. New requirements include the provision of polygon data for the location of project interventions at CEO endorsement stage. In addition, projects' results frameworks are:
  - encouraged to draw extensively in the headline, binary, component or complementary indicators of the [KMGBF monitoring framework](#) to better measure their contributions to the KMGBF goals and targets.
  - requested, whenever feasible and relevant, to include indicators of biodiversity outcomes to complement and underpin the GBFF indicators
