As such, it would be recommended to identify the relevant component of the project as far as possible and clarify the type of the co-financing. Please update from the PIF stage how each activity/output helps the country meet MPGs requirements in particular mandatory requirements for BTR1 (e.g. a time gap between the inventory year and the reporting year, time series of the GHG inventory, IPCC guidelines/methodologies, institutional arrangements etc.), where relevant. Please clarify if there is any remaining gap that will be addressed outside this project.

2. Outcome 1: Please clarify if each output covers all sectors, and if not, please provide justifications on that.

3. Output 1.3: Please explain if which sectors are covered and how such sectors will be prioritized and clarify any linkages between the GHG inventory and the tools being developed there.

4. Outcome 2: It would be useful to assess the existing capacities within the Finance Ministry and the line ministries prior to start the implementation. Please clarify why the agriculture sector has been chosen for domestic climate finance specifically under Output 2.1.1.
