#### CEO Recommendation

#### Brief reasoning for CEO Recommendations

The objective of this enabling activity support is to fast-track readiness and early actions to implement the post-2020 Global Biodiversity Framework by providing financial and technical support to GEF-eligible Parties to the Convention on Biological Diversity (CBD) in their work to review and align their national targets, NBSAPs, policy frameworks, monitoring frameworks and finance with the Global Biodiversity Framework.

Each grant will support countries to achieve the following four outcomes:

- 1) NBSAPs are ready to be aligned and National Biodiversity targets are aligned with post-2020 GBF and relevant SDG targets
- 2) Enhanced and improved monitoring, reporting systems and transparency frameworks

- 3) Identification of actions for policy alignment and coherence on nature-related sectors
- 4) Biodiversity finance gaps defined, and opportunities for resource mobilization identified

COVID 19 risk mitigation plan is in place to support implementation.
