No, please address the following -

The M&E Component is 7.5% of the GEF Financing, which is above the recommended threshold of 5% for projects up to 5 million dollars. Please ask the Agency to revise.

3- There was a mismatch between the selected option in the column "Programming of Funds GBFF Action Area" in the GEF Financing Table (below at the left-hand side) and the selected option in the column "Programming Directions" in the Indicative Focal Area Elements table (below at the right-hand side) ? please ask the Agency to amend.

At concept, this project discusses working with a large variety of topics, sectors, peoples, and issues. We would encourage the project to focus on delivering concrete results in specific areas rather than overreaching. Over complicated projects often struggle with too many different stakeholders, ministries, and activities. Please consider how this project will focus during development. The GEF Secretariat is available for further discussions as needed.

*Please ensure that the entire amount reported as "amount to support action by IPLCs [for] biodiversity" in the CEO endorsement requests corresponds to project activities supporting action by IPLCs, and that the project documentation describes the IPLCs who will benefit from the project and details their role in the project. Activities where IPLCs are mere beneficiaries should not be counted in this amount. Support to stakeholders that are not IPLCs (i.e. indigenous peoples or local communities that embody traditional lifestyles relevant for the conservation and sustainable use of biological diversity) should not be counted either. Whether the project as a whole or certain project activities support action by IPLCs could entail a number of circumstances including but not limited to: IPLCs directly receive resources through the GEF agency for execution of project components/activities; IPLCs lead the design and management of some project activities but do not manage financial resources; the project provides in-kind support to actions led by IPLCs for biodiversity, etc.*

The M&E Component has been corrected

We fixed the mismatch between the selected option in the column 'Programming of Funds GBFF Action Area' and the selected option in the column 'Programming Directions' in the Indicative Focal Area Elements table.
