I. General Project Information / Eligibility

- a) Does the project meet the criteria for eligibility for GBFF funding?
- b) Is the General Project Information table correctly populated?

Secretariat's Comments

Agency's Comments

II. Indicative Project Overview

- a) Is the project objective presented as a concise statement and clear?
- b) Are the components, outcomes and outputs sound, appropriate and sufficiently clear to achieve the project objective?

Secretariat's Comments

Agency's Comments

- c) Are the components adequately funded?
- d) Are the GEF Project Financing and Co-Financing contributions to PMC proportional (only for Multi-trust Funds PPGs with BD from the GEF Trust Fund)?
- e) Is the PMC equal to or below 5% of the total GEF grant for projects of more than \$2 million or 10% for projects of less than \$2 million? If the requested PMC is above the caps, has an exception (e.g. for regional projects) been sufficiently substantiated?

IV. Project Description

- a) Is there a concise theory of change that describes the project logic, including how the project design elements will contribute to the objective, the expected causal pathways, and the key assumptions underlying these?
- b) Are the project components and activities identified in the theory of change adequately described.
- c) Is a list of stakeholders that will be involved in the project and their roles in the design and implementation of the project provided?
- d) Are the Specific Action Area(s) that the project is aligned with identified and an explanation provided on and how the project will support the achievement of the specific Action Area objective(s).

Secretariat's Comments

2026/02/19 Dear Colleagues, thank you for this submission. For this project to be further considered in the selection round, please address the comments below and resubmit as soon as possible:

- The M&E allocation is 6.3% of the GEF financing. The recommended threshold for projects up to \$5 million is 5%. Please revise accordingly.

Kindly note that the project selection process remains ongoing.

2026/03/06 Congratulations! We are pleased to inform you that this proposal has been selected under the fifth round of the GBFF.

As you develop the CEO endorsement request, please take into account the following comments:

1. Please better explain the biodiversity value of Lake Sevan. This is worth highlighting more, especially as it is a key biodiversity area (KBA).
2. Please spell out the linkages with ADB's glacier to farm programme, and explore how the two initiatives strengthen each other. Could G2F provide more co-financing?
3. One could argue that this project is too small to address biodiversity loss of Lake Sevan given the scale of causes of ecological degradation (dams, diversion of water for irrigation, etc.). How would you counter this argument?
4. Please double-check or justify the number of beneficiaries (core indicator 11) which could be overestimated.
5. The project mentions restoration but does not include a figure for core indicator 3. Please consider adding a contribution to this core indicator.
6. Since submission, [GBFF guidelines on supporting actions by IPLCs](#) have been published. Please follow these guidelines carefully during PPG implementation, taking care to involve IPLC representatives in co-designing relevant components and including IPLC institutions identified by IPLCs themselves. The CEO endorsement request is expected to provide evidence that the reported dollar amount to support actions by IPLCs for biodiversity was calculated according to the guidelines.
7. Since submission, the GBFF Council adopted a [new results framework](#) for the GBFF. Please note this project will be requested to transition to this new results framework at its next iteration (either the CEO endorsement request if submitted after July 1, 2026, or the first PIR). Please note that detailed guidelines for the new results framework will be released before July. New requirements include the provision of polygon data for the location of project interventions at CEO endorsement stage. In addition, projects' results frameworks are:

- Encouraged to draw extensively in the headline, binary, component or complementary indicators of the [KMGBF monitoring framework](#) to better measure their contributions to the KMGBF goals and targets; and

- Requested, where feasible and relevant, to include indicators of biodiversity outcomes to complement and underpin GBFF indicators.

We look forward to receiving the CEO ER package and remain available should you wish to contact us.
