Dear Mr. Vidicus:

Letter of Country Endorsement by Designated Cambodia Operational Focal Point for the Global Environment Facility

In our discussions with the World Bank preparation mission for the proposed Biodiversity and Protected Areas Management Project (BPAMP) in March 1998, the Ministry of Environment expressed interest in applying for the Global Environment Facility (GEF) funds to support the implementation of BPAMP.

The project will play a key role in strengthening the capacity of the Ministry of Environment to conserve biodiversity of national and international significance in protected areas by developing replicable approaches at the field and national levels.

We will appreciate your assistance to obtain GEF funds.

Thank you for your cooperation.

Yours Sincerely,

Dr. Mok March
Minister of Environment
