**China: Endorsement Letter for GEF Project Concept  
Conservation and Sustainable Utilization of Wild Relatives of Crops**

Dear Ms. Leitner:

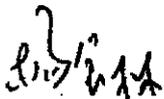

This is to advise you that Ministry of Finance, as the GEF Focal Point for China, would like to endorse the captioned project concept to be submitted by UNDP for GEF support.

Wild relatives of crops are important genetic resources for sustainable agriculture. They have been affected by human and natural factors. In addition, they are facing very serious environmental problems. Conservation of wild relatives of crops is significant for agricultural sustainability both in China and worldwide. Therefore, Chinese government would like to support this project concept.

Looking forward to a fruitful and pleasant cooperation with UNDP.

Best regards.

Sincerely yours,

(Jinlin Yang)  
Operational Focal Point for China
