

80. Ecuador: Safeguarding Biodiversity in the Galapagos Islands by Enhancing Biosecurity and Creating the Enabling Environment for the Restoration of Galapagos Island Ecosystems. 3,301,472 USD, Conservation International, GEF ID = 9282

Suggestions for improvements to be made during the drafting of the final project proposal:

The full proposal should clearly identify how the sustainability of the introduced measures, especially in the component 2 and 3, can be guaranteed. Therefore, Germany suggests elaborating in more detail on the institutionalization of the new social infrastructure and reestablishment of keystone species as well as on the role of local institutions and population in the project's exist-strategy.
