	<i>indicators identified, that will be used to track progress toward achieving the Aichi target(s).</i>	<p>Please make reference to the appropriate Aichi targets. Please introduce that information in the PIF. Thanks.</p> <p>8-7-13 Properly addressed in the Response to the GEF Review. Cleared</p>	
	5. Is the project consistent with the recipient country's national strategies and plans or reports and assessments under relevant conventions, including NPFE, NAPA, NCSA, NBSAP or NAP?	<p>6-18-13 The project is consistent with Ethiopia's Growth and Transformation Plan (2010-2015) and with the National Biodiversity Strategy and Action Plan (NBSAP).</p> <p>Was this project identified in the GEF-5 National Portfolio Formulation Exercise (NPFE)? Please introduce that information in the PIF. Thanks.</p> <p>8-7-13 Cleared</p>	
Project Design	6. Is (are) the baseline project(s) , including problem(s) that the baseline project(s) seek/s to address, sufficiently described and based on sound data and assumptions?	<p>6-18-13 There is information on the investments in the environment, including REDD and the CRGE. Nevertheless, there is no information on the baseline investments for most of the outputs and outcomes of the project including: i) Conservation for threaten species (Decision Support Systems, Public Expenditure Reviews), ii) PES scheme. Please elaborate on what the Government is planning on doing on these outcomes, whether or not this GEF project is approved. Please introduce that information in the PIF. Thanks.</p> <p>8-7-13</p>

	7. Are the components, outcomes and outputs in the project framework (Table B) clear, sound and appropriately detailed?	6-18-13 Please address the following issues in the revised PIF 1. There is no apparent link between the proposed activities to conserve threaten species, and the CRGE and the PES schemes. Please elaborate on the relationship. 2. In Component 1, it is not clear how the CRGE Funding Facility is related to the proposed "public expenditure review" and the enhanced conservation of threaten species. Please elaborate on these relationships. 3. In Component 1, it is not clear how the CRGE Funding Facility related to the proposed "public expenditure review". 4. In Component 1, it is not clear what modifications the project is proposing on doing with the CRGE considering the type of project currently being supported by the this funding facility: (1). Improving crop and livestock production practices for reduced emissions, whilst increasing food security and farmer income; (2) Protecting and re-establishing forests for their carbon stocks and other ecosystem services; (3) Expanding electricity generation from renewable sources of energy for domestic and regional markets; and (4) Leap frogging to modern and energy-efficient technologies in rural cooking, transport, industry, and buildings.

		<p>5. In Component 2, while it is clear that the Government is going to pay for the Ecosystem Services, it is not clear if these payments are made out of the funds available at the CRGE Funding Facility. Please elaborate. If the latter, please elaborate on the sustainability of the effort; For how long the Government is in position to pay the farmers in the target area (20,000 ha to 250,000 at the end of the project).</p> <p>6. The PES schemes appear to be more "direct payments for conservation" than PES schemes. Please make refer to the recent scientific and conservation literature for roles models, pros and cons. of schemes like the proposed here.</p> <p>8-7-13 Properly addressed in the Response to the GEF Review. 	<p>8. (a) Are global environmental/adaptation benefits identified? (b) Is the description of the incremental/additional reasoning sound and appropriate?</p>	<p>6-18-13 Yes. Cleared</p>	
	<p>9. Is there a clear description of: a) the socio-economic benefits, including gender dimensions, to be delivered by the project, and b) how will the delivery of such benefits support the achievement of incremental/ additional benefits?</p>		
	<p>10. Is the role of public participation, including CSOs, and indigenous peoples where relevant, identified</p>	<p>6-18-13 Have the Local Communities being informed that they are going to</p>

	11. Does the project take into account potential major risks, including the consequences of climate change, and describes sufficient risk mitigation measures? (e.g., measures to enhance climate resilience)	<p>6-25-13 The risks associated with a PES schemes that more "direct payments for conservation" than payments based on the recurrent payment of ecosystem services delivered, should be seriously discussed.</p> <p>8-7-13 Properly addressed in the Response to the GEF Review. Cleared</p>	
	12. Is the project consistent and properly coordinated with other related initiatives in the country or in the region?	<p>6-18-13 Why is there no reference to the GEF-UNDP project "Institutionalizing Payments for Ecosystem Services"? What lessons were learned in that project that applies to the case in Ethiopia? Please make use of the information and lessons learned by international organizations working on PES, including the Katoomba Group (http://www.katoombagroup.org/) and Forest Trends. A full justification to set up this PES scheme is needed.</p> <p>8-7-13 Properly addressed in the Response to the GEF Review. Cleared</p>	
	13. Comment on the project's innovative aspects,	6-18-13

	<p>sustainability, and potential for scaling up.</p> <ul style="list-style-type: none"> • Assess whether the project is innovative and if so, how, and if not, why not. • Assess the project’s strategy for sustainability, and the likelihood of achieving this based on GEF and Agency experience. • Assess the potential for scaling up the project’s intervention. 	<p>Innovation: Are there innovative features in the project design at the National, Regional or Local level?</p> <p>Sustainability: If funds to pay farmers come from the CRGE Funding Facility the project is clearly unsustainable in the long run. Based on the information provided in the PIF, the funds in this facility are sink funds, which will be used in due course. If the payments will be made from the Central Government coffers, please elaborate on the seriousness of the Government to sustain the effort and the reasons for doing it.</p> <p>Scale-up: There is reference the potential for the systematic scale up of PES across the Afromontane forests (covering at least 250,000 hectares). What would be the level of investments needed to sustain this effort and what would be the sources of funding? Is this realistic?</p> <p>8-7-13 Properly addressed in the Response to the GEF Review. Project Financing	16. Is the GEF funding and co-financing as indicated in Table B appropriate and adequate to achieve the expected outcomes and outputs?	<p>6-18-13 It is not clear if the GEF funding and co-financing is going to be sufficient to achieve the proposed outputs and outcomes, because it is not clear where the funds for the PES will come from, and if the co-financing will be used in part or in total for paying the Ecosystem Services proposed in the scheme.</p> <p>8-7-13 Properly addressed in the Response to the GEF Review.
