Review Criteria	Questions	Secretariat Comment at PIF (PFD)/Work Program Inclusion <sup>1</sup>	Secretariat Comment At CEO Endorsement(FSP)/Approval (MSP)
Eligibility	1. Is the participating <b>country eligible</b> ?	Yes, Madagascar is an LDC and has completed its NAPA preparation.	
	2. Has the <b>operational focal point</b> endorsed the project?	Yes. A letter of endorsement from the OFP dated December 20, 2012 is attached.	
Resource Availability	3. Is the proposed Grant (including the Agency fee) within the <b>resources available</b> from (mark all that apply):		
	• the STAR allocation?		
	• the focal area allocation?		
	• the LDCF under the principle of equitable access	Yes, the funding requested for this project is available for Madagascar under

Strategic Alignment	<p>4. Is the project aligned with the focal area/multifocal areas/ LDCF/SCCF/NPIF <b>results framework and strategic objectives</b>?</p> <p><i>For BD projects: Has the project explicitly articulated which Aichi Target(s) the project will help achieve and are SMART indicators identified, that will be used to track progress toward achieving the Aichi target(s).</i></p>	Yes, it is aligned with LDCF objectives CCA-2 and CCA-3.	
	<p>5. Is the project consistent with the recipient <b>country's national strategies and plans</b> or reports and assessments under relevant conventions, including NPFE, NAPA, NCSA, NBSAP or NAP?</p>	Yes; the proposed LDCF project focuses on three priority sectors identified in Madagascar's NAPA: infrastructure, water resources management, and agriculture & livestock. The adaptation options are also consistent with needs identified in the National Strategy & Action Plan on Biological Diversity and the National Action Plan to Combat Desertification.	
	<p>6. Is (are) the <b>baseline project(s)</b>, including problem(s) that the baseline project(s) seek/s to address, sufficiently described and based on sound data and assumptions?</p>	Yes. The southern, eastern and central regions of Madagascar are highly food insecure and have low access to drinking water and sanitation. Water contamination and associated health issues are common. Natural hazards and a weak economic base for these regions contribute to vulnerability and exposure. Climate change is expected to raise temperatures unfavorably (for crops) and

Project Design		<p>exacerbate extreme climatic events. The project seeks to build a stronger agro-economic base, among other measures, thereby reducing household vulnerability in farming communities. It will do so by providing additional adaptation benefits within 6 baseline projects/initiatives spanning poverty reduction, water &amp; sanitation, and agriculture and livestock.</p>	
	<p>7. Are the components, outcomes and outputs in the <b>project framework</b> (Table B) clear, sound and appropriately detailed?</p>	<p>Yes. The project will:</p> <ul style="list-style-type: none"> <li>- provide trainings for government meteorological and agricultural staff to analyze climate and socio-economic information in an integrated manner;</li> <li>- install agromet/hydro-met stations in project areas;</li> <li>- pilot climate-resilient agrosylvopastoral technologies;</li> <li>- render key community infrastructure more climate resilient;</li> <li>- establish agricultural advisory support groups for climate resilience;</li> <li>- foster a public-private partnership for support for climate resilience; and</li> <li>- provide financial credit products to communities.</li> </ul> <p>By CEO endorsement (11/18/2013): Please provide more information on the 'additional' adaptation aspects of activities mentioned in Component 3.2. Dredging, de-silting etc., are not adaptation measures in and of themselves. The PIF does provide further relevant information on climate resilience aspects of these activities but only later in the document. Please ensure that the additional adaptation elements are clear</p>

		also in Table B.	
	<p>8. (a) Are global environmental/adaptation benefits identified? (b) Is the description of the incremental/additional reasoning sound and appropriate?</p>	<p>Yes the 'additional' adaptation reasoning has been provided for each baseline project and it is sound. The LDCF project will support the following aspects of climate resilience in the baseline projects:</p> <p>1) 'Sustainable Livelihoods &amp; Fight Against Poverty': Inclusion of climate change risk reduction elements in water and sanitation master plans; advisory support to communities to manage adverse climatic impacts.</p> <p>2) 'Sustainable Mechanism for the Development of Access to Water and Sanitation in Rural Areas': Climate-proofing of small infrastructure for water and sanitation, and capacity building of communities to use climate risk management planning and management tools.</p> <p>3) 'Goal WASH Program': Analysis of how climate change could impact UNDP's WASH program and assessment of measures to ensure resilience to the impacts.</p> <p>4) 'Supporting the Strengthening of Professional Organizations and Agricultural Services': Strengthening the capacity of public and private agricultural support services on climate change adaptation techniques including climate change training modules targeting senior policy executives, regional/local technicians from relevant ministries, descision-makers, researchers and</p>

		<p>extension workers.</p> <p>5) 'Joint Program for the Reduction of Vulnerability of Population in Three Regions in the Southern Part of Madagascar': Climate risk advisory services to guide selection and production of seeds/seedlings, agroforestry tools and products, and construction/rehabilitation of agricultural infrastructure.</p> <p>6) 'Global Funds for Social Development of the Ambatovy Project': Inclusion of climate risk mitigation measures in this community development program of the Ambatovy mining project.</p> <p>7) 'Project for Developing the Malagasy Zebu Industry': Integration of climate resilience aspects in pasture management and disease management measures to develop the zebu livestock industry.</p> <p>In addition, hydromet stations will be installed and relevant departmental capacities built.</p>	
	<p>9. Is there a clear description of:  a) the <b>socio-economic benefits</b>, including gender dimensions, to be delivered by the project, and  b) how will the delivery of such benefits support the achievement of incremental/ additional benefits?</p>		
	<p>10. Is the role of public participation, including CSOs, and indigenous peoples where relevant, identified and explicit means for their engagement explained?</p>	<p>No. Information on public participation is missing.</p> <p>Recommended action (Nov. 18, 2013): Please provide information on engagement of civil society and local communities (including indigenous), and</p>

		<p>their involvement in LDCF project design and implementation.</p> <p>12/4/13: Yes for PIF stage. In Component 1, 200 stakeholders from civil society organizations will be trained across the project regions to integrate climate risk considerations in the design and implementation of their programs and initiatives. Component 3 will include establishment and operation of advisory groups to provide support to communities on how to use the outputs of the agro-forestry-pastoral models. These groups will be composed of community members who are trained and supervised by Agricultural Service Centers.</p> <p>12/4/13: By CEO Endorsement, please provide details on 2-way engagement with communities (e.g., drawing on community advice and traditional knowledge to guide project design; building capacity at community level so that they can ensure sustainability of project activities and outcomes in the long term, etc).</p>	
	<p>11. Does the project take into account potential major risks, including the consequences of climate change, and describes sufficient risk mitigation measures? (e.g., measures to enhance climate resilience)</p>	<p>Yes for PIF stage.</p> <p>Recommended action by CEO endorsement (11/18/2013): The project includes several sub-components, encompassing 7 baseline projects. Please discuss risks pertaining to execution/coordination across the project.</p>

	<p>12. Is the <b>project consistent and properly coordinated</b> with other related initiatives in the country or in the region?</p>	<p>More information is requested. Besides the baseline projects, the only other related initiative that has been mentioned for the region is the 'Enabling Climate Resilience in Agriculture Sector in the Western Area of Madagascar' project.</p> <p>Recommended action (11/18/2013): Please provide further information on climate change adaptation work being undertaken in the project regions or nationally and discuss whether the LDCF will coordinate with these.</p> <p>12/4/13: Yes. Information has been provided on how the LDCF project will coordinate with ongoing related initiatives on execution of activities, agro-forestry-pastoral models, sharing of meteorological information, and capacity building.</p>	
	<p>13. Comment on the project's <b>innovative aspects, sustainability, and potential for scaling up.</b></p> <ul style="list-style-type: none"> <li>• Assess whether the project is innovative and if so, how, and if not, why not.</li> <li>• Assess the project's strategy for sustainability, and the likelihood of achieving this based on GEF and Agency experience.</li> <li>• Assess the potential for scaling up the project's</li> </ul>	<p>Innovation: It is difficult to comment in innovative aspects at PIF stage as project activities have yet to be fully designed.</p> <p>Sustainability: The project contains many elements/sub-components spanning several baseline projects, and many proposed activities are community-based. More information is needed by CEO Endorsement stage on how project activities will be coordinated, maintained, and communities kept engaged.</p> <p>Scale-up: There is high potential for scale up. The activities are mostly local in</p>

	14. Is the project structure/design sufficiently close to what was presented at PIF, with clear justifications for changes?		
	15. Has the cost-effectiveness of the project been sufficiently demonstrated, including the cost-effectiveness of the project design as compared to alternative approaches to achieve similar benefits?		
Project Financing	16. Is the GEF funding and co-financing as indicated in Table B appropriate and adequate to achieve the expected outcomes and outputs?	Yes. Over 80% of the LDCF funding will support investment components and associated capacity building measures. The proposed breakdown of co-financing is also appropriate.	
	17. <u>At PIF</u> : Is the indicated amount and composition of co-financing as indicated in Table C adequate? Is the amount that the Agency bringing to the project in line with its role? <u>At CEO endorsement</u> : Has co-financing been confirmed?	Yes. Grant financing of \$34.2 M is being provided. The amount that UNDP is bringing (\$4.3 M) is in line with its role.

	18. Is the funding level for <b>project management cost</b> appropriate?	Yes, at 4.7% of total LDCF project cost.	
	19. <u>At PIF</u> , is PPG requested? If the requested amount deviates from the norm, has the Agency provided adequate justification that the level requested is in line with project design needs? <u>At CEO endorsement/ approval</u> , if PPG is completed, did Agency report on the activities using the PPG fund?	Yes, PPG has been requested and is within the norm.	
	20. If there is a <b>non-grant instrument</b> in the project, is there a reasonable calendar of reflows included?	N/A	
Project Monitoring and Evaluation	21. Have the appropriate <b>Tracking Tools</b> been included with information for all relevant indicators, as applicable?		
	22. Does the proposal include a <b>budgeted M&amp;E Plan</b> that monitors and measures results with indicators and targets?		
Agency Responses	23. Has the Agency adequately responded to comments from:		
	• STAP?		
	• Convention Secretariat?		
	• The Council? • Other GEF Agencies?		
Secretariat Recommendation			
Recommendation at PIF Stage	24. <b>Is PIF clearance/approval being recommended?</b>	Not yet. Clearance is pending response to Items 10 and 12.  12/4/13 Yes, the project is recommended for
