Chairman of the Global Environmental Facility

April 9, 2004

*Re: Endorsement of the Concept Note and PDI-B proposal for the Armenia  
Renewable Energy Project*

Dear Mr. Good

The development of renewable energy resources is of top priority for Armenia. This importance is clearly articulated in the recently approved Poverty Reduction Strategy Paper, Energy Law and other strategic documents of the Government of Armenia. That is why the Government of Armenia has requested the Global Environmental Facility and the World Bank to support in developing renewable energy resources.

In my capacity of the Global Environment Facility Focal Point for Armenia, I endorse the project concept and the application of the World Bank for a PDI-B project preparation facility for the Armenia Renewable Energy Project.

Looking forward for your positive response.

Your sincerely,

Vardan Aysazyan  
The Minister of Nature Protection  
Focal point for GEF
