Dear Sir

**RE: GEF - (BLOCK A) RENEWABLE ENERGY-BASED RURAL  
ELECTRIFICATION PROGRAMME FOR BOTSWANA**

We refer to the above-mentioned proposal that has been submitted to us as the GEF National Focal Point by the Permanent Secretary, Ministry of Finance and Development Planning for endorsement.

We fully endorse the proposal for submission to the Global Environmental Facility for funding, as it will promote both developments by supplying a source of energy to the rural areas while being environment friendly in its wise use of renewable energy.

Thank you.

Yours faithfully

Moshana L. Nchunga  
EXECUTIVE SECRETARY

Dear Sir/Madam

**GOVERNMENT OF BOTSWANA COMMITMENT TO  
RENEWABLE ENERGY BASED-RURAL ELECTRIFICATION PROGRAMME**

The Government of Botswana, through the Ministry of Minerals, Energy and Water Resources, is undertaking a study on "Identifying and Removing of Barriers to Widespread Adoption of Renewable Energy-Based Rural Electrification" in collaboration with the Global Environmental Facility (GEF) (Tender No.BOT/00/G41/A/1G/99).

As the solar energy resource in the country is abundant, a project document is being prepared that has components of providing rural electrification using solar or other renewables, with different models being considered.

This is therefore to inform you and GEF Council that the Government of Botswana is committed to the implementation of the Renewable Energy-Based Rural Electrification Programme. An amount equivalent to P19 million has been set aside for this activity under the National Development Plan 9.

The Government of Botswana looks forward to cooperating with UNDP and GEF in implementing the outcome of this project.

Thank you.

Yours faithfully

W. J. Mandlebe

Dear Mr. Krause,

As per your e-mail of this morning, please find attached two letters from NCSA and MFDP regarding Energy Project Proposal.

Thank you.

Vivian
