Khalid Malik
Resident Representative for China
United Nations Development Programme

Subject: Endorsement Letter for GEF/UNDP Demonstration for Fuel-Cell Bus Commercialization Project

Dear Mr. Malik:

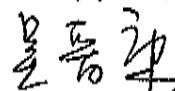

This is to advise you that Ministry of Finance, as the GEF Focal Point for China, would like to endorse the captioned project to be submitted by UNDP for GEF support.

The Demonstration Project for Fuel Cell Bus Commercialization in China is to reduce GHG emissions and air pollution through widespread commercial introduction of FCBs in urban areas of China. The main objectives of the project are to demonstrate the technical and commercial viability of Fuel Cell Bus System to reduce GHG emissions and air pollution, also to create a national-level awareness of FCBs and their long term commercialization in China.

I look forward to continuous cooperation in this project between UNDP and China.

Best regards,

Sincerely yours,

(Wu Jinkang)

Operational Focal Point of China
