

3Annex D: LDCF Adaptation Monitoring and Assessment Tool

The outcomes, indicators, target at CEO Approval and baselines from the **Climate Change Adaptation - LDCF/SCCF Adaptation Monitoring and Assessment Tool (AMAT)** are shown below.

Project Baselines, targets and outcomes						
Indicator	Unit of measurement	Baseline at CEO Endorsement	Target at CEO endorsement	Actual at mid-term	Actual at Completion	Comments (e.g. specify unit of measurement)
Objective 2: Strengthen institutional and technical capacities for effective climate change adaptation						
Outcome 2.3: Institutional and technical capacities and human skills strengthened to identify, prioritise, implement, monitor and evaluate adaptation strategies and measures						
Indicator 9: Number of people trained to identify, prioritize, implement, monitor and evaluate adaptation strategies and measures	Number of people	0	300			
	% female	0	30%			
Objective 3: Integrate climate change adaptation into relevant policies, plans, and associated processes						
Outcome 3.1: Institutional arrangements to lead, coordinate and support the integration of climate change adaptation into relevant policies, plans and associated processes established and strengthened						
Indicator 11: Institutional arrangements to lead, coordinate and support the integration of climate change adaptation into relevant policies, plans and associated processes	Number of countries	0	20			
	Score	3	6			This score is based on the “Scoring Methodology” definition in the AMAT, but using an estimation of the level of institutional and technical

						capacity instead of the 5 criteria provided by GEF SEC. It is at this stage unclear which countries will receive one-on-one support, and thus it is not possible to define the score for each criterion. Most likely, all countries targeted have at least started arrangements to integrate CCA into policies, plans and processes, thus the baseline is scored as "3".

Q1: Has a gender analysis been conducted during project preparation?	NO
Q2: Does the project results framework include gender-responsive indicators, and sex-disaggregated data?	YES
Q3: Of the policies, plans frameworks and processes supported how many incorporate gender dimensions?	All
Q4: At mid-term/completion, does the mid-term review/terminal evaluation assess progress and results in terms of gender equality and women's empowerment?	N/A
