Subject: **Endorsement of Sustainable Energy Program.**

Endorsement

In my capacity of GEF Political Focal Point of the Republic of Macedonia, hereby I endorse the Project concept and PDF-B request for development of Sustainable Energy Program.

This project will further contribute to the national efforts for fostering development of energy utilization, support of energy efficiency investments and increasing of availability of renewable energy investments. Through the planned process of strengthening and development of all necessary administrative and legal components under the planned Sustainable Energy Program in great amount we will contribute and improve the investment climate for energy efficiency and renewable energy activities, along with contributing to the protection and improvement of environment. Therefore I endorse the presented project proposal and I use this opportunity to express our readiness for active participation in the project implementation.

Looking forward to continuing our successful cooperation.

Sincerely,

Ljubomir Janev, 

Minister of Environment and Physical Planning
