Subject : request letter

Dear Mr Djoghlar

Mauritania is grateful to UNEP and GEF for their assistance in protecting the world environment. This is also an opportunity to assure you of Mauritania's objective to share in this global endeavour to save what is of common benefit. The government of Mauritania therefore wants to prepare Phase II and requests UNEP to assist the Government in preparing, submitting and implementing this project aimed at contributing to protect the global environment.

Thank you very much for your cooperation.
