Washington, DC 20433 USA

**SUBJECT: RE-ENDORSEMENT OF THE SECOND PHASE OF NAMIBIA'S RENEWABLE ENERGY PROGRAMME**

Dear Mr. Good,

This is a follow-up to the initial endorsement that was submitted for the second phase of the *Namibia Renewable Energy Programme* (NAMREP).

Namibia would like to take this opportunity to re-affirm its commitment to, and endorsement of the NAMREP second phase. Given the good progress made and results achieved thus far, it is of utmost importance for the country to continue with the proposed second phase activities so as to fully demonstrate the viability of investments in solar energy technologies as well as to ensure the desired widespread replication across the country. Furthermore, this second phase would be very timely considering the challenge that the country is currently facing as the demand for electricity grows faster than its supply.

As Namibia's GEF Operational Focal Point, I therefore once again hereby confirm that this programme is a priority for the country and sincerely hope that this proposal will receive your favourable consideration.

Yours faithfully,

Teofilus Nghitila  
Director: Environmental Affairs  
GEF Operational Focal Point: Namibia
