Subject: **Expression of Interest for Development of Wind Power Project at Pasni**

Dear Sir,

We have been informed that Global Environment Facility (GEF) is helping Pakistan in sustainable development of utility-scale wind power production and is contributing valuable technical and financial assistance in establishment of a 15 MW wind power project in the coastal areas of Pakistan over the next 3-5 years. We understand that the proposed project is expected to be developed as an IPP with QUESCO as the potential power purchaser.

Our company has been involved in a number of infrastructure development projects in the power sector over the past 5 years relating to both generation and transmission. We are in the final stage of formation of a multinational consortium comprising of companies having vast experience in development of renewable energy projects with special emphasis on wind power generation. The list of major project undertaken by our company and other members of our consortium is also enclosed herewith for your reference.

Currently we are looking forward to participate in a possible open bidding process for the construction and operation of a wind power plant in the coastal areas of Pakistan and would like to evaluate the feasibility already conducted by GEF on a site proposed at Pasni.

We would highly appreciate if GEF would keep us in the loop on further development on the project activities and provide useful information to facilitate our decision making in this regard.

Sincerely,

RAFIQUE DAWOOD
Chairman & CEO

Ref: Design, Manufacture, Supply, Erection, Testing and Commissioning of
15 MW Wind Turbine Power Plant

Dear Sir,

We have learnt that Global Environment Facility (GEF) is helping Pakistan in sustainable development of utility-scale wind power production and is contributing valuable technical and financial assistance in establishment of 15MW wind power project in the coastal areas of Pakistan over the next 3-5 years.

We are an indenting company operates in various fields since 1975 with different styles. We introduced and sold first Chinese Thermal Power Plant 210 MW in 1981 to WAPDA and since than participated numbers of International Tenders for small, Medium and Large magnitudes with Power and Water Wings of Pakistan Water & Power Development Authority (WAPDA), Pakistan Telecommunication Company Limited (PTCL), KESC, Oil/Gas, CAA and other government and private sector Organizations against IBRD, ADB, IDB, KFW, Kuwait Fund Loans, Suppliers Credit and Letter of Credits, on behalf of our principals abroad. We have vast experience in International Competitive Bidding (ICB).

One of our principals M/S Nordex, Germany are very much interested in developing the above project in Pakistan. They are waiting ICB for construction and operation of wind power plant and would like to evaluate feasibility already conducted by GEF on proposed site of Pasni.

We shall appreciate if GEF could keep us informed of the development of the project and provide useful information to facilitate our decision making in this respect.

Best regards

 M.A.H. Siddiqui, CEO
