Dear Ms. Albert,

I refer to the project concept document for the *"Piloting an Integrated Operational Approach to Climate Change Adaptation, Biodiversity, Land Degradation and International Waters Planning and Management in the Caribbean Region"* project, which has been developed in close collaboration with the Caribbean Community Climate Change Centre and the World Bank.

That project is designed in accordance with national development and environmental priorities as defined in *"Dominica's Climate Change Adaptation Policy and Implementation Plan"* and *"Dominica's Biodiversity Strategy and Action Plan"* which have both been approved by Cabinet.

I would appreciate your assistance in communicating this endorsement letter to the Global Environmental Facility (GEF) in support of the application for a PDF Block-B Grant.

Yours sincerely
