		<p>and adequately described for this stage of project development.</p> <p>By CEO Endorsement, upon a more detailed understanding of the specific activities to be carried out in the context of the proposed project, please discuss the gaps and needs associated with the baseline initiatives to allow for a complete and thorough assessment of the additional reasoning.</p>	<p>management, including the revision of the Disaster Management Policy and Act and efforts to develop a national and district-level Emergency Preparedness Plans.</p> <p>The Request for CEO Endorsement identifies clearly the relevant gaps and opportunities associated with this baseline scenario.</p>
	<p>12. Has the cost-effectiveness been sufficiently demonstrated, including the cost-effectiveness of the project design approach as compared to alternative approaches to achieve similar benefits?</p>		<p>NOT CLEAR. The proposed project appears to have been designed in a cost effective manner. The Project Document (Section 2.6) demonstrates that sufficient cost comparison has been carried out for all key components of the project.</p> <p>In addition, taking into account the simultaneous submission of 9 similar projects in the region, and with a view to enhancing cost-effectiveness, the Request for CEO Endorsement could explore approaches to enhance regional coordination and collaboration. This would also respond the request of the LDCF/SCCF Council, captured in the Highlights of its 12th meeting.</p> <p>RECOMMENDED ACTION: Please consider, from the perspective of cost-effectiveness, approaches to enhance regional coordination and collaboration, including activities carried at the regional level.</p> <p>07/26/2013 – YES. The re-submission clarifies how the proposed project will seek to capture the</p>

			close collaboration with the 9 similar projects in the region. In particular, opportunities for joint procurement and training activities have been identified, as well as modalities for inter-country information sharing.
	<p>13. Are the activities that will be financed using GEF/LDCF/SCCF funding based on incremental/additional reasoning?</p>	<p>NOT CLEAR. While, for the most part, the additional cost reasoning is well described for each component and output, it is not clear what activities would in fact be carried out under Component 3 and how such activities relate to the technical assistance activities carried out under outputs 1.6, 2.1 and 2.3. Moreover, the description of outcome 3.2 on page 18 appears to be inconsistent with that of the Project Framework (Table B).</p> <p>RECOMMENDED ACTION: Please provide a more clear and coherent description of the added value of Component vis-à-vis the project as a whole, and, if appropriate, consider integrating the component into outputs 1.6, 2.1 and 2.3.</p> <p>By CEO Endorsement, upon a more comprehensive assessment of baseline initiatives, as well as associated gaps and needs, please describe in greater detail the activities proposed for LDCF financing, their associated cost, and the additional reasoning on which these activities are based.</p> <p>05/21/2012 -- YES. The project framework has been revised as recommended.</p>	<p>YES. The project framework is sound and sufficiently clear.</p> <p>Please refer, however, to the recommendation under Section 12 above, and make appropriate adjustments in the Project Framework in response to the request of the LDCF/SCCF Council, if necessary.</p>
	<p>15. Are the applied methodology and assumptions for the description of the incremental/additional benefits sound and appropriate?</p>	<p>YES. The adaptation benefits associated with the activities proposed for LDCF financing are clearly described, based on sound and appropriate assumptions and methodology.</p>	<p>YES.</p>
	<p>16. Is there a clear description of: a) the socio-economic benefits, including gender dimensions, to be delivered by the project, and b) how will the delivery of such benefits support the achievement of incremental/additional benefits?</p>	<p>YES. The socio-economic benefits and gender dimensions are well described for this stage of project development.</p> <p>By CEO Endorsement, please provide further information as to how the proposed project would reach the most vulnerable communities and groups, particularly women.</p>	<p>NOT CLEAR. Comprehensive stakeholder consultations have been carried out during project preparation, and a clear stakeholder engagement plan has been developed to guide project</p>

		level stakeholders involved in the project.	
	18. Does the project take into account potential major risks, including the consequences of climate change and provides sufficient risk mitigation measures? (i.e., climate resilience)	<p>YES. The risk assessment is adequate for this stage of project development.</p> <p>By CEO Endorsement, please provide a more detailed analysis of risks and relevant mitigation measures, considering in particular the sustainability of the systems established and the capacities developed (see also Section 10 above).</p>	<p>YES. A comprehensive assessment of relevant risks and associated, appropriate mitigation measures is provided in Annex 3 of the Project Document.</p>
	19. Is the project consistent and properly coordinated with other related initiatives in the country or in the region?	<p>YES.
