GEF Regional Coordinator for Climate Change
RBAP, UNDP
FAX: 212 906 5825

Dear Dr. Nandita Mongia,

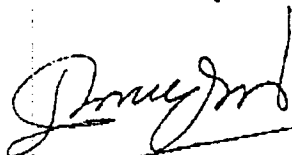

It is my pleasure to inform you that the Government of Vietnam has approved a list of priority project concepts relating to two GEF's focal areas (Biodiversity and Climate Change). UNDP is proposed as the Implementing Agency for five of project concepts. These are:

1. Management of Cat Ba National park
2. Conservation of the Red River Delta wetlands
3. Energy Efficiency in Lighting
4. The measure of improving the efficiency of industrial boilers for reducing GHG emission in Vietnam
5. Reduction of electric power consumption and GHG emission in Cement plant Ha Tien II

These project concepts were also reviewed by UNDP Hanoi, who considered them suitable for GEF funding. We would very much appreciate your assistance in developing these projects.

Thank you very much for your kind cooperation and look forward to hearing from you soon.

Yours sincerely,

Pham Khoi Nguyen
President of GEF- Vietnam

CC:

Dr. Tim Boyle, GEF Regional Coordinator for Biodiversity & INT Water, RBAP
Dr. Nicolas Rosellini, Resident Representative, UNDP Hanoi
Dr. Gordon Johnson, Head of Environment Unit, UNDP Hanoi
