**PREPARATION OF A TRANS-BOUNDARY DIAGNOSTIC ANALYSIS (TDA) FOR THE
PROTECTION OF THE CANARY CURRENT LARGE MARINE ECOSYSTEM**

I have acknowledged receipt of your proposal for the above project.

The Gambia is a signatory to the convention for the protection and development of the Coastal and Marine Environment of the WACAF region and has already benefited from one of its activities Integrated Management of Catchment and Coastal areas of the WACAF Region (WACAF/III-ICAM) developing an Integrated Coastal Areas Management Plan.

The Coastal profile formulated during the course of developing an ICAM plan for The Gambia gives detailed information on the present state of the Coastal area and the resources within. stakeholder participation emphasised in the proposal has already been established during the formulation of the ICAM plan.

The major social benefits to be derived from the successful execution of the project are in line with issues raised by Coastal communities during the ICAM development process.

I have thoroughly reviewed the project proposal and by a copy of this fax, endorse the project proposal for onward transmission to the GEF secretariat for funding.
