au projet « Développement et Protection de
l'Environnement Côtier et Marin en Afrique Subsaharienne ».

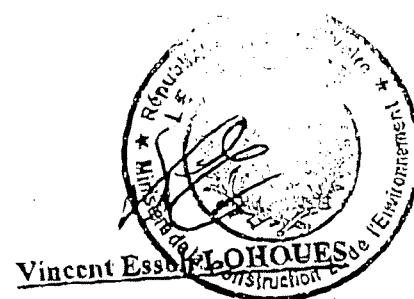

Monsieur le Directeur Général,

J'accuse bonne réception de la proposition de projet (PDF) « Développement et Protection de l'Environnement Côtier et Marin en Afrique Subsaharienne », initié par le Comité Consultatif sur la Protection de la Mer (ACOPS).

J'ai le plaisir de vous informer que je donne un avis favorable pour la mise en œuvre de ce projet et pour l'envoi d'une lettre d'appui adressée par notre Point Focal Opérationnel du FEM au Coordinateur Exécutif du PNUE/FEM à Nairobi. En effet, le Ministère de la Construction et de l'Environnement, structure de mise en œuvre de ce projet, fait partie du Comité Préparatoire qui a recommandé le développement d'un tel projet pour assister les pays subsahariens dans la gestion durable de leur environnement et ressources côtiers et marins.

Je vous prie d'agréer, Monsieur le Directeur Général, l'assurance de ma considération distinguée.

Dear Mr Djoghlaf,

ENDORSEMENT LETTER FOR THE DEVELOPMENT AND PROTECTION OF THE COASTAL AND MARINE ENVIRONMENT IN SUB-SAHARAN AFRICA PROJECT

The above mentioned project submitted to the GEF Operational Focal Point (Kenya) by Advisory Committee in Protection of the Sea (ACOPS), has been reviewed by the National Review Panel and found satisfactory.

It was noted that the proposal seeks to assist Sub-Saharan countries in achieving sustainable utilization and management of Coastal and Marine environment.

The Operational Focal Point therefore, fully endorses the proposal for consideration for GEF funding.

Our Ref/0 34/GM/MICOA/00

Date: 17th April 2000

Subject: Endorsement for the Medium sized project on Development and protection of the Coastal and Marine Environment in Sub-Saharan Africa.

Dear Mr. Djoghlaf,

Reference is made to the project proposal "Development and Protection of the Coastal and Marine Environment in Sub-Saharan Africa developed by the proposed executive agency the Advisory Committee on Protection of the Sea (ACOPS) under instruction of African country members of the preparatory committee for the partnership conference.

The proposal is in line with the recommendations and instructions given by the preparatory committee for the partnership conference for the Development and Protection of the Coastal and Marine Environment which was set up in accordance with the Cape Town Declaration, adopted by some 20 African ministers attending the Cape Town Conference on the Co-operation for the Development and Protection of the Coastal and Marine Environment in sub-Saharan Africa. The project, which is of Trans-regional nature, will strengthen the existing regional GEF and other programs in Africa in line with the endorsement, which it received from the OAU summit, held in Algier in July 1999.

FROM : MICOA

PHONE NO. : 465849

Apr. 19 2000 03:03PM F

The overall objective of the project is to assist sub-Saharan countries in achieving sustainable management of their coastal and marine environment and resources. The specific objectives of this project are as follows:

- To identify areas, sites or living resources of regional and global significance that are suffering measurable degradation (i.e. hot spots);
- To determine the sources/causes of this degradation and the associated scales of impact to provide the basis of calculating incrementality at regional and extra-regional scales;
- To identify areas, sites and resources of regional significance that although not currently degraded, are threatened with future degradation.
- To determine, through root cause analysis, the fundamental causes of the damage or threat posed, and finally;
- To design a program of inventions addressing problems of regional priority that may be presented to the partnership Conference.

Given that the project is also within on national priorities, I would appreciate if you could facilitate approval of funding for this project.

Francisco Mabjaia
Vice-Minister

Dear Mr. Djoghlaf,

ENDORSEMENT FOR THE MEDIUM SIZED PROJECT TO BE SUBMITTED FOR CONSIDERATION OF GEF FINANCING

Reference is made to the project proposal "*Development and Protection of the Coastal and Marine Environment in Sub-Saharan Africa*" developed by the proposed executing agency – the Advisory Committee on Protection of the Sea (ACOPS) under instruction of African country Members of the Preparatory Committee for the Partnership Conference.

The proposal is in line with the recommendations and instructions given by the *Preparatory Committee for the Partnership Conference for the Development and Protection of the Coastal and Marine Environment* which was set up in accordance with the *Cape Town Declaration*, adopted by some 20 African ministers attending the *Cape Town Conference on the Co-operation for the Development and Protection of the Coastal and Marine Environment in Sub-Saharan Africa*. The project, which is of trans-regional nature will strengthen the existing regional GEF and other programmes in Africa in line with the endorsement which it received from the OAU Summit, held in Algiers in July 1999.

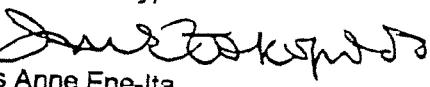

The overall objective of this Project is to assist sub-Saharan countries in achieving sustainable management of their coastal and marine environment and resources. The specific objectives of this Project are as follows:

- to identify areas, sites or living resources of regional and global significance that are suffering measurable degradation (i.e. hot spots);
- to determine the sources /causes of this degradation and the associated scales of impact to provide the basis of calculating incrementality at regional and extra-regional scales;
- to identify areas, sites and resources of regional significance that, although not currently degraded, are threatened with future degradation.

- to determine, through root cause analysis, the fundamental causes of the damage or threat posed, and finally,
- to design a programme of interventions addressing problems of regional priority that may be presented to the Partnership Conference.

Given that the project is also within national priorities of Nigeria, in accordance with our Environmental Action Plan, I would appreciate if you could facilitate approval of funding for this project.

Yours sincerely,

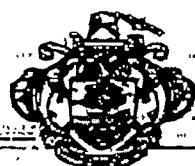

Mrs Anne Ene-Ita

Dear Mr. Djoghlaf

Re: Endorsement for the Medium Sized Project for Consideration of GEF Financing

I am writing in connection with the project proposal "Development and Protection of the Coastal and Marine Environment in Sub-Saharan Africa" developed by the proposed executing agency, the Advisory Committee on Protection of the Sea (ACOPS), under instruction of the African country members of the Preparatory Committee for the Partnership Conference and Nigeria, as the President of AMCEN.

The proposal is in line with the recommendations and instructions given by the Preparatory Committee for the Partnership Conference for the Development and Protection of the Coastal and Marine Environment, which was established in accordance with the Cape Town Declaration, adopted by some 20 African ministers attending the Cape Town Conference on the Co-operation for the Development and Protection of the Coastal and Marine Environment in Sub-Saharan Africa. The project, which is trans-regional in scope, will strengthen the existing regional GEF and other programmes in Africa in line with the endorsement received from the OAU Summit, held in Algiers in July 1999.

The overall objective of this Project is to assist sub-Saharan countries in achieving sustainable management of their coastal and marine environment and resources. The specific objectives of this Project are as follows:

- Identify areas, sites or living resources of regional and global significance that are suffering measurable degradation (i.e. hot spots);
- Determine the sources/causes of this degradation and the associated scales of impact to provide the basis of calculating incrementally at regional and extra-regional scales;
- Identify areas, sites and resources of regional significance that, although not currently degraded, are threatened with future degradation.
- Determine, through root cause analysis, the fundamental causes of the damage or threat posed;
- Design a programme of interventions addressing problems of regional priority that may be presented to the Partnership Conference.

Given that the project also corresponds with national priorities outlined in the Environmental management Plan for Seychelles (2000-2010), I would appreciate if you could facilitate approval of funding for this project.

Yours sincerely,

Alain Butler Payette
Principal Secretary

Dear Mr. Djoghlaf

**ENDORSEMENT OF GEF PROJECT: DEVELOPMENT AND PROTECTION OF THE COASTAL
 AND MARINE ENVIRONMENT IN SUB-SAHARAN AFRICA**

The above project proposal which has been developed by the Advisory Committee on Protection of the Sea (ACOPS) is in line with the recommendations and instructions given by the Preparatory Committee for the Partnership Conference for the Development and Protection of the Coastal and Marine Environment.

The project, which is of a Trans-regional nature, will strengthen the existing regional GEF and other programmes in Africa and is in line with the endorsement received from the OAU Summit, held in Algiers in July 1999.

Furthermore the project also contributes to our national priorities in terms of sustainable development, international waters and our commitment to the Southern African Development Community (SADC). With this mind I therefore grant my endorsement for this project and would appreciate it if you could facilitate the approval of funding for this project.

Yours sincerely

Dr Crispian Olver

NAIROBI - KENYA

Monsieur,

En me référant à la proposition de projet « Développement et Protection de l'Environnement Mari et Côtier en Afrique Subsaharienne » développée par l'Agence d'Exécution proposée, le Comité Consultatif sur la Protection de la Mer (ACOPS) et sur les instructions des pays africains membres du Comité Préparatoire pour la Conférence sur le Partenariat.

Cette proposition de projet est en droite ligne avec les recommandations et les instructions données au Comité Préparatoire pour la Conférence sur le Partenariat pour le Développement et la Protection de l'Environnement Côtier qui a été établi en conformité avec la Déclaration de Cap Town, adoptée par une vingtaine de ministres participant à la Conférence sur la Coopération pour le Développement et la Protection de l'Environnement Côtier en Afrique Subsaharienne. Le projet, qui est de nature trans-régionale, renforcera les programmes régionaux FEM et autres en Afrique, en accord avec l'approbation qu'il a reçue du Sommet de l'OUA, tenu à Alger en juillet 1999.

L'objectif global de ce projet est d'assister les pays subsahariens dans l'accomplissement de la gestion durable de leur environnement et de leurs ressources côtiers et marins. Les objectifs spécifiques de ce projet sont les suivants :

- identifier les zones, les sites ou les ressources vivantes, d'importance régionale ou mondiale, qui souffrent d'une dégradation appréciable (c'est-à-dire les « hot spots ») ;
- déterminer les sources/causes de cette dégradation et les échelles des impacts associés, en vue de fournir la base de calcul de leur importance aux échelles régionales et extra-régionales ;

.../...

- identifier les zones, les sites ou les ressources vivantes, d'importance régionale qui, bien qu'ils ne soient pas actuellement dégradés, sont menacés
- déterminer, à travers des analyses des causes à la base, les causes fondamentales des dégâts des menaces citées, et finalement,
- concevoir un programme d'intervention abordant les problèmes, de priorité régionale, qui pourront être présentés à la Conférence sur le Partenariat.

Etant donné que ce projet entre dans le cadre de nos priorités nationales (gestion durable de la zone et des ressources côtières et marines, en vue d'un développement durable), je vous saurai gré des dispositions que vous voudriez bien faire prendre pour faciliter l'octroi du financement de ce projet.

Je vous prie d'agréer, Monsieur, l'assurance de ma considération distinguée.

KOUAME VICTOR
Coordonnateur du Point Focal Opérationnel
Du FEM.

Ampliation :

Monsieur KOUAME Victor, Directeur Général CAA, Administrateur au Conseil du FEM.

Monsieur TENON Jules, Directeur de l'Environnement.

Monsieur MOHAMED T. EL ASHRY, Président et Directeur Général du FEM.

Monsieur SEBEK VICTOR, Directeur Exécutif ACOPS.
