**Sustainable Land Management Project  
Project Activities and Co-financing Arrangements**

<b>S.No.</b>	<b>Outcomes</b>	<b>Outputs/Sub-Outputs</b>	<b>GEF and Co-financing</b>
1	Enabling Environment Created	1.1: Appropriate policy reforms for SLM recommended	GEF
		1.2: NAP mainstreamed into sectoral planning	GEF
		1.3: National Criteria & Indicators (C & I) Developed for SLM	GEF
		1.4: Project Document for Tranche-II developed	Co-financing
		1.5: National Desertification Control Fund (NDCF) established	Co-financing
2	Capacity Building for Sustainable Land Management	2.1: Institutional capacity at National, Provincial and Local levels strengthened	Co-financing
		2.2: Apex bodies for coordination of desertification control measures formed	Co-financing
		2.3: Orientation of research institutes towards targeted SLM activities	GEF
		2.4: Public – Private partnership promoted	GEF
		2.5: Knowledge generated for sustainable land management	GEF
		2.6: Outreach & Awareness raised	GEF
3	Mainstreaming SLM into Land Use Planning Process	3.1: National and provincial land use plans developed/harmonized to SLM principles	Co-financing
		3.2: SLM Information System based on GIS database developed	GEF
		3.3: Sustainability of SLM practices at feasibility study/demonstration sites assessed	GEF
4	Participatory feasibility studies for demonstration of SLM practices	4.1: Integrated management of water resources and rangelands in Chakwal & Attock districts of Punjab	GEF >>> Co-financing

		<b>4.2:</b> Poverty alleviation through soil conservation measures in District Bhakkar	GEF >>> Co-financing
		<b>4.3:</b> Integrated Natural Resource Management with the involvement of postoralist communities in Rakhshan Valley District Kharan, Balochistan	GEF >>> Co-financing
		<b>4.4:</b> Sustainable use of Mazri Palm and NTFP with the involvement of local communities and private sector in District Awaran, Balochistan	GEF >>> Co-financing
		<b>4.5:</b> Sustainable Land Management by introduction of low delta and high commercial value crops with micro irrigation in Surkhab, District Pishin in Balochistan	GEF >>> Co-financing
		<b>4.6:</b> Conservation of water and soil with the involvement of local communities in Shaikh Haider Zam, District D. I. Khan in NWFP.	GEF >>> Co-financing
		<b>4.7:</b> Strengthening of traditional land use practices in low productive lands in District Lakki Marwat in NWFP	GEF >>> Co-financing
		<b>4.8:</b> Water harvesting and Agriculture Development in Kacho Area, Taluka Johi, District Dadu in Sindh	GEF >>> Co-financing
		<b>4.9:</b> Participatory NRM for drought mitigation and food security in District Tharparkar in Sindh	GEF >>> Co-financing
5	Lessons learnt & adaptive management	<b>5.1</b> National & Provincial Coordination Units (NCU & PCU) established	GEF >>> Co-financing
		<b>5.2:</b> Monitoring and Evaluation	GEF
		<b>5.3:</b> Lessons learned document and disseminated	GEF >>> Co-financing

**Sustainable Land Management Project  
Ministry of Environment**

**Criteria for Selection of Feasibility Studies/Pilot Testing Sites**

- i. Should have political support at all levels—local, district & provincial
- ii. Required information is available (e.g. economic, social, environmental and financial)
- iii. Local level partner organizations are available
- iv. National significance of the project sites (e.g. identified as priority area under the NAP to combat desertification)
- v. Global Significance of site (e.g. internationally threatened species or ecosystem, carbon sequestration potential and/or extent of land degradation)
- vi. High demonstration or replicability value
- vii. No duplication or over-lapping
- viii. Clear potential for improving local livelihoods or poverty alleviation
- ix. High likelihood of success or potential for change
- x. Preferably address multiple issues and causes
- xi. Pilot duration 2- 3 years (followed by full-scale GEF project intervention)
- xii. Rough cost estimates (~ US\$120,000 – 150,000)

# Feasibility Study Sites and Agro-Ecological Zones of Pakistan

Annex I
