Strategic Alignment	<p>4. Is the project aligned with the focal area/multifocal areas/ LDCF/SCCF/NPIF results framework and strategic objectives? <i>For BD projects: Has the project explicitly articulated which Aichi Target(s) the project will help achieve and are SMART indicators identified, that will be used to track progress toward achieving the Aichi target(s).</i></p>	<p>BD4, programme 9 LD3, Programme 4 SFM1</p> <p>Aichi Targets: strategic goal B (Reduce the direct pressures on biodiversity and promote sustainable use); - Target 5: the rate of loss of all natural habitats, including forests, is at least halved and where feasible brought close to zero, and degradation and fragmentation is significantly reduced; - Target 7: areas under agriculture, aquaculture and forestry are managed sustainably, ensuring conservation of biodiversity; - Target 15: ecosystem resilience and the contribution of biodiversity to carbon stocks has been enhanced.</p> <p>Indicators are embedded in the project outcome statement in Table B, and clear target and baseline will be developed during the PPG.</p> <p>Cleared</p>

Project Design	6. Is (are) the baseline project(s) , including problem(s) that the baseline project(s) seek/s to address, sufficiently described and based on sound data and assumptions?	The problems and the barriers the project wants to overcome are well described. Cleared.	
	7. Are the components, outcomes and outputs in the project framework (Table B) clear, sound and appropriately detailed?	To be determined later. See cell 12, the project will have to be revised to be fully aligned with the Commodity IAP that is under development and UNDP's lead. Mars 19, 2015 Addressed.	
	8. (a) Are global environmental/ adaptation benefits identified? (b) Is the description of the incremental/additional reasoning sound and appropriate?	Yes, the GEB are well identified: 1.9 million ha of intact forests, avoided emission of 269 million tC, better sustainable and integrated forest landscape management in three sites (100,000 ha) in Kalimantan with better Biodiversity Health Index, X ha of productive landscapes on degraded lands, sustainable financing mechanisms, etc. At CEO endorsement, please detail the monitoring system, the baseline and the indicators.	
	9. Is there a clear description of: a) the socio-economic benefits , including gender dimensions, to be delivered by the project, and b) how will the delivery of such benefits support the achievement of incremental/ additional

	10. Is the role of public participation, including CSOs, and indigenous peoples where relevant, identified and explicit means for their engagement explained?	An impressive list of stakeholders and partners, including the private sector, CSO and the national alliance of indigenous people is provided. At CEO endorsement, please detail the coordination mechanisms.	
	11. Does the project take into account potential major risks, including the consequences of climate change, and describes sufficient risk mitigation measures? (e.g., measures to enhance climate resilience)	Yes. During the PPG, include a comprehensive risk analysis. Cleared.	
	12. Is the project consistent and properly coordinated with other related initiatives in the country or in the region?	No. The project mentions other on-going GEF projects. However, given the strategic importance of the Commodities IAP, which is currently under development under UNDP's lead, it is essential that this project proposal is fully aligned with the IAP in order to maximize potential of both initiatives. The project will have to demonstrate that it is aligned with the IAP and how it supports the strategic approach. March 19, 2015 Addressed.	
	13. Comment on the project's innovative aspects, sustainability, and potential for scaling up.	Innovation: Following the previous comment (cell 12), it is difficult to support a new pilot and demonstration project on forest planning and

	15. Has the cost-effectiveness of the project been sufficiently demonstrated, including the cost-effectiveness of the project design as compared to alternative approaches to achieve similar benefits?		
Project Financing	16. Is the GEF funding and co-financing as indicated in Table B appropriate and adequate to achieve the expected outcomes and outputs?	<p>To be determined.</p> <p>The resources for this project stay relatively low (\$9 million) in regards to the challenges that are faced in Kalimantan. It is essential to well coordinate this project with the Commodity IAP. Please, justify how these resources will be complementary of those used within the IAP.</p> <p>At CEO endorsement, see if cofinancing can be increased for the third component. We understand that resources from other projects/initiatives should be channeled</p>
