NAIROBI

Dear

*Ahmed,*

**RE: ENDORSEMENT LETTER FOR MOUNT KENYA EAST PILOT  
PROJECT FOR NATURAL RESOURCES MANAGEMENT**

The above named project was submitted to the National Operation Focal – Kenya by International Fund for Agricultural Development (IFAD).

It is noted that the project aims to protect rich biodiversity and fauna and flora species of global conservation signification. The Project will also address poverty reduction through improved food security and income levels of farmers. The project will also promote effective use of natural resources, improved access and management of natural resources. IFAD will work in collaboration with local institutions including government, non-governmental and community based organizations.

The Consultations under the PDF-B process involved a wide range of stakeholders. The National Operational Focal Point, therefore, endorses this proposal on behalf of the Kenya Government.

Thank you for your continued cooperation.

Yours

*Sincerely*  
*Ratemo W. Michieka*

**PROF. RATEMO W. MICHIEKA, Phd, EBS  
DIRECTOR GENERAL**
