**RE: CONFIRMATION LETTER OF SUPPORT FOR THE NATIONAL
ADAPTATION PROGRAMME OF ACTION (NAPA)**

I am pleased to officially submit the above mentioned finalized project proposal. As you may be aware, Zambia and the rest of the world over the past years, have continued to experience climatic variations in weather pattern. Temperatures have risen and fallen at unexpected levels.

Meanwhile, change in rainfall pattern and droughts have caused suffering to communities living in areas where catastrophes have occurred, hence the need to put in place strategies for people to adapt to these changes and mitigate the impacts.

It is in view of the above concerns, Zambia through the ministry, would like to commit itself in line with the United Nations Framework Convention on Climate Change (UNFCCC) objectives to fully support the proposal on the NAPA.
