Dear Sir,

**Re: Project Proposal on National Capacity Self Assessment for Botswana.**

We refer to the above mentioned proposal submitted for consideration for GEF funding.

The proposal is in consonance with the national priorities of the country as established in the National Development Plan 9 and the National Policy on Natural Resources Conservation and Development Paper No.1 of 1990. The National Policy provides guidance on interventions in the areas of desertification and drought, and the management of biological diversity and climate change.

This is to confirm that the national focal points of the three Rio Conventions (on biodiversity, climate and desertification) had been consulted and are in agreement with this brief.

We therefore endorse the proposal for submission for GEF funding in our capacity as the GEF National Focal Point.

Thanks,

Yours faithfully,

  
Steve Monna

**for Executive Secretary.**
