**Subject: Letter of Endorsement for the GEF Project “ National capacity needs self-assessment related to environmental management of global conventions ”**

Dear Mr. Slay,

In my capacity as the Global Environment Facility (GEF) operational focal point for Slovenia, I hereby endorse the enclosed proposal to access GEF funding to conduct a National Capacity Self Assessment for Global Environmental Management (NCSA) through the United Nations Development Programme.

Pursuant to the NCSA Operational Guidelines, the focal points for climate change, biodiversity and land degradation/desertification have been fully consulted and their views taken into account in the formulation of this proposal.

Slovenia considers the NCSA to be an important and valuable exercise in our ongoing efforts to protect the global environment while working to achieve our national sustainable development goals.

Yours sincerely,

Emil Ferjančič  
Head, International Relations

GEF Political and Operational Focal Point
